

Application No. 09/849621 (Docket: DT.0102)
37 CFR 1.111 Amendment dated 09/28/2005
Reply to Office Action of 06/28/2005

REMARKS/ARGUMENTS

In the Office Action Summary, the Examiner noted that claims 1-35 are pending in the application. The Examiner additionally stated that claims 1-35 are rejected. By this communication, claims 1-35 have neither been amended nor cancelled. Hence, claims 1-35 are pending in the application.

Applicant hereby requests further examination and reconsideration of the application, in view of the following remarks.

Although the Office Action Summary indicated that claims 1-35 are rejected and that the specification is objected to by the Examiner, pages 2-24 of the instant Office Action do not provide any points or arguments directed thereto. Rather, comments in pages 2-24 are directed not to the subject patent application, but to Application/Control Number 09/849,448, as the header on each of the pages indicates.

Applicant therefore respectfully requests that the instant case be examined and that the claims of the application be considered for allowance.

Applicant also notes that, although the comments on pages 2-24 of the instant Office Action are directed to another patent application, the signed Information Disclosure Statements and Notice of References cited bear the serial number of the instant application. Applicant therefore appreciates consideration of the references cited in PTO Forms 1449 and has noted the references provided by the Examiner in the PTO-892 Form.
